

User Stories Catalog

Project: MoFlow: Smart Recurring Bill Payments Platform

Document Type: User Stories Catalog

Role: Business Analyst

Version: 1.0

Methodology: Agile Scrum

Date: July 2026

1. Introduction

1.1 Purpose

This document defines the Agile User Stories for the MoFlow Smart Recurring Bill Payments Platform. Each user story captures a specific business need from the perspective of the end user or system administrator.

The stories provide a foundation for sprint planning, backlog prioritisation, solution development, quality assurance, and user acceptance testing.

Each story follows the standard Agile format:

As a user role
I want some functionality
So that I receive business value

Epic 1 - User Registration & Authentication

US-001 User Registration

As a new user
I want to register for a MoFlow account
So that I can access recurring payment services.

Priority: High

US-002 Login

As a registered user
I want to securely log in
So that I can manage my recurring payments.

Priority: High

US-003 Password Reset

As a registered user

I want to reset my password

So that I can regain access to my account.

Priority: High

US-004 Profile Management

As a user

I want to update my profile information

So that my account information remains accurate.

Priority: Medium

Epic 2 - Mobile Money Account Management

US-005 Link Mobile Money Account

As a user

I want to link my mobile money account

So that recurring payments can be processed automatically.

Priority: High

US-006 Manage Linked Accounts

As a user

I want to add or remove payment accounts

So that I can control which account is used.

Priority: Medium

Epic 3 - Recurring Payment Scheduling

US-007 Create Recurring Payment

As a user

I want to schedule recurring payments

So that I never forget important bills.

Priority: High

US-008 Select Payment Frequency

As a user

I want to choose how often payments occur

So that the schedule matches my billing cycle.

Priority: High

US-009 Edit Payment Schedule

As a user

I want to modify an existing payment schedule

So that I can respond to changing circumstances.

Priority: High

US-010 Pause Payment Schedule

As a user

I want to temporarily pause recurring payments

So that payments are skipped without deleting the schedule.

Priority: Medium

US-011 Resume Payment Schedule

As a user

I want to reactivate paused payments

So that recurring payments continue.

Priority: Medium

US-012 Cancel Payment Schedule

As a user

I want to permanently cancel recurring payments

So that future payments stop.

Priority: High

Epic 4 - Payment Processing

US-013 Automatic Payment Execution

As a user

I want payments to be processed automatically

So that I don't have to pay manually each month.

Priority: High

US-014 Payment Confirmation

As a user

I want to receive confirmation after payment

So that I know the transaction succeeded.

Priority: High

US-015 Failed Payment Notification

As a user

I want to know when a payment fails

So that I can resolve the issue quickly.

Priority: High

US-016 Retry Failed Payment

As a user

I want to retry failed payments

So that outstanding bills can still be paid.

Priority: Medium

Epic 5 - Dashboard & Payment Management

US-017 Dashboard Overview

As a user

I want a dashboard summarising my recurring payments

So that I can quickly understand my financial commitments.

Priority: High

US-018 Upcoming Payments

As a user

I want to view upcoming scheduled payments

So that I know what will be paid next.

Priority: High

US-019 Payment History

As a user

I want to review previous payments

So that I can track my financial activity.

Priority: High

US-020 Search Payment History

As a user

I want to search my payment history

So that I can quickly locate specific transactions.

Priority: Medium

US-021 Filter Transactions

As a user
I want to filter transactions by date, status, or biller
So that I can analyse my payment records.

Priority: Medium

US-022 Download Receipts

As a user
I want to download payment receipts
So that I have proof of payment.

Priority: Medium

Epic 6 - Notifications

US-023 Payment Reminder

As a user
I want reminders before scheduled payments
So that I can ensure sufficient account balance.

Priority: High

US-024 Notification Preferences

As a user
I want to customise notification settings
So that I receive updates through my preferred channels.

Priority: Medium

Epic 7 - Security

US-025 Secure Authentication

As a user
I want secure authentication
So that my financial information remains protected.

Priority: High

US-026 Multi-Factor Authentication

As a security-conscious user

I want multi-factor authentication

So that my account is more secure.

Priority: Medium

US-027 Automatic Logout

As a user

I want inactive sessions to end automatically

So that my account is protected.

Priority: Medium

Epic 8 - Administration

US-028 User Management

As an administrator

I want to manage registered users

So that the platform remains secure.

Priority: High

US-029 Monitor Transactions

As an administrator

I want to monitor payment activity

So that operational issues can be identified quickly.

Priority: High

US-030 Generate Reports

As an administrator
I want to generate business reports
So that I can analyse platform performance.

Priority: Medium

Epic 9 - Future Enhancements

US-031 Spending Insights

As a user
I want to view spending trends
So that I better understand my recurring expenses.

Priority: Low

US-032 Budget Monitoring

As a user
I want to compare recurring payments against my budget
So that I manage my finances effectively.

Priority: Low

US-033 Multiple Payment Categories

As a user
I want to categorise recurring payments
So that I organise my expenses more effectively.

Priority: Medium

US-034 Favourite Billers

As a user
I want to save frequently used billers
So that creating recurring payments is faster.

Priority: Medium

US-035 Payment Calendar

As a user

I want a calendar view of upcoming payments

So that I can better plan my finances.

Priority: Medium

2. Story Prioritisation

Priority	Description
High	Required for MVP release
Medium	Planned for post-MVP releases
Low	Future product enhancement

3. Story Mapping

Epic	Number of Stories
Registration & Authentication	4
Mobile Money Accounts	2
Recurring Payments	6
Payment Processing	4
Dashboard	6
Notifications	2
Security	3
Administration	3
Future Enhancements	5

Total	35 User Stories
-------	-----------------

4. Story Dependencies

Examples of key dependencies include:

- **US-005** (Link Mobile Money Account) depends on **US-001** (Registration) and **US-002** (Login).
- **US-007** (Create Recurring Payment) depends on **US-005** (Link Mobile Money Account).
- **US-013** (Automatic Payment Execution) depends on **US-007** (Create Recurring Payment).
- **US-014** (Payment Confirmation) depends on **US-013** (Automatic Payment Execution).
- **US-019** (Payment History) depends on **US-013** (Automatic Payment Execution).

5. Conclusion

This User Stories Catalog translates the business and functional requirements of MoFlow into a structured Agile product backlog. The stories are grouped into logical epics, prioritised for incremental delivery, and written from the perspective of end users and administrators. They provide a clear foundation for backlog refinement, sprint planning, development, testing, and stakeholder collaboration.
